

Remote *Driver Minder*

Out of Hours delivery management

Enabling secure & cost effective off peak deliveries

Driver Minder is a remote monitoring-based service developed by RVR with many customer benefits, these include:

- Protecting lone HGV drivers for H&S and secure delivery cycles
- Reducing delivery times through off peak travel
- Reduction in fuel costs
- Maximise stock availability
- Combating shrinkage

By tracking the security seals of each load alongside additional driver prime security protocols, RVR can operate alarms, gates & lighting, thus enabling a driver to carry out cost effective & secure deliveries with minimal exposure to personnel and security risk.

In addition, this unique service can aid organisations in meeting reduction of CO2 emissions targets, adding tangible Corporate Social Responsibility statements.
